

D-SUBMINIATURE (D-SUB) ECONOMY RANGE CONNECTORS

OVERVIEW

FCI's D-Subminiature (D-Sub) connectors are part of an industry standard for applications requiring robust and reliable connectors. These proven D-Sub connectors are one of the most popular Input /Output interconnects, addressing a wide variety of applications in telecommunications, data, consumer, industrial & instrumentation, military and medical. FCI offers D-Sub economy range connectors to meet all design requirements, and to address increasing needs for proven connectors for less demanding applications.

FEATURES

- Designed for less demanding applications
- D-shaped shell design
- Meets DIN 41652 and MIL-C-24308 dimensional standards
- Stamped and formed contacts
- Durability of 50 mating and unmating cycles
- Straight and angled terminations available
- Right angle versions available to meet both Europe and US styles

BENEFITS

- Robust and reliable connectors at a competitive price
- Supports the need for polarisation
- Interchangeable and intermateable with other makes
- Economical solution
- Suitable for applications such as set-top box, energy meters, control devices
- Varied PCB mounting options
- Can fit into footprint/ pitch options of 10.4/ 2.54mm and 8.08/ 2.84mm

D-SUBMINIATURE (D-SUB) ECONOMY RANGE CONNECTORS

TECHNICAL INFORMATION

MATERIALS

- Insulator: Glass filled Thermoplastic (UL94V-0) Black
- Contact: Copper Alloy
- Shell: Steel
- Contact Plating: Gold Flash over Nickel
- Shell Plating: Nickel / Tin

ELECTRICAL PERFORMANCES

- Current Rating: 5A
- Rated Voltage: 250V
- Contact Resistance: $\leq 25\text{m}\Omega$

- Insulation Resistance: $>5000\text{M}\Omega$

- Dielectric Strength: 1000V RMS

ENVIRONMENTAL

- Operating Temperature Range: -55°C to $+105^{\circ}\text{C}$

MECHANICAL PERFORMANCE

- Durability: 50 mating cycles
- Retention against Torque: 0.5Nm
